

There's nothing like watching children's faces as they see their dream literally rise up from the ground before their eyes. When you and your co-workers volunteer to construct a playground in just eight hours, you'll find yourselves inspired and fulfilled by the immediate results of your efforts. Plus you'll discover it's the perfect way to build teamwork and a creative sense of play within your company!

This year's 14<sup>th</sup> Annual Charlotte Playground Build is presented by **Hands On Charlotte and the Business Volunteer Council**. Those who've taken part in our projects have greatly enriched the lives of young children who otherwise might never have the chance to play to their heart's content within a safe environment.

Please join us for this year's Playground Build on **October 14, 2016 at Blythe Elementary School**. We promise you'll bring out the kid in our kids – and in you!
