EI.06 PARENT ENGAGEMENT SIP Review

From your perception, Are we doing what we said we would to meet this indicator?

Are there other action steps we need to take to meet this?

SIP Review

E1.06

When this objective is fully met, we will regularly implement feedback from parents to improve our overall instructional program. We will include parent education to help family better understand how they can support the school goals at home. Relationships between school and home will have an impactful influence on students' social and academic performance. Families will receive regular communication from teachers about their children's progress through apps, such as Remind and Talking Points. We will have a great presence of families on our SIT and PTO.

When this objective is fully met, we will be more responsive to the data collected and utilize this data to improve teaching and learning. Our systems for data review and responsiveness will be internalized and we will make decisions which significantly impact the forward movement of our school. We will celebrate strengths and address weaknesses based on our data. We will enlist support from curriculum specialists, ILT, and high performing staff to increase the effectiveness of our newest staff through informal mentorship. We will understand the mastery criteria for each standard and will determine the necessary steps for addressing gaps in our instructional program, based on student performance. We will monitor the effectiveness of the interventions/strategies on student performance and decide to continue/discontinue use.
