

Digital Summer Learning Tools

We are only a few days away from summer break! Are you looking for ways to keep your child learning during the summer? Are you looking for free safe educational web tools that your child can access anywhere, anytime? The Summer Learning BLITZ campaign will begin June 15 and go through August 14. This summer students are encouraged to play using digital tools. The district has provided free access to digital tools that build math and reading skills. Simply visit the Summer Learning BLITZ website or scan the QR code to access the digital tools. Students have a chance to win prizes based on the amount of time they spend extending their learning using digital tools.

For every hour students spend on one of three digital tools (COMPASS Learning, RAZ KIDS, DREAMBOX) students will have their name entered into the drawing. The more time students spend on these tools, the more times their names will be entered to win AMAZING prizes which includes gift cards valued at \$100, laptops/tablets, Bobcats/Panthers and Charlotte Knight tickets and the new XBoxOne.

The Summer Learning BLITZ website will be live June 1. We will begin tracking student usage on June 15. Visit the website for downloadable information about each application.
