

2018 – 2019

Oakhurst STEAM Academy Parental Involvement Policy

At OSA we believe that parental involvement is a critical component for student and school success. We strive to include parents in decision-making through participation on our School Leadership Team, Parent Teacher Association, and school-based committees. It is our goal to provide parents/guardians with numerous and varied involvement activities that will both allow parents to participate directly in the education of students and help in the decision-making process of the school.

Our goals are to:

- Provide timely and frequent communication to families.
- Ensure that communication is provided in multiple languages to meet the needs of families.
- Allow parents to be a part of the decision-making process of the school through participation on school-based committees and in school-based events.
- Ensure regular two-way communication between the home and school, parent and teacher.
- Ensure that school budget priorities are based on the input from staff, students, parents, and other major stakeholders.
