

SHARON SCHOOL TECHNOLOGY USAGE AGREEMENT

TECHNOLOGY USAGE EXPECTATIONS

By signing the below agreement, I agree to the Sharon School Technology Usage and Safety Guidelines. I agree to support my student in understanding the following:

1. Students will follow all district and classroom policies, procedures and guidelines when using technology.
2. All district technology resources and technologies brought from home (BYOT) should be used for academic purposes only. Sharon School is not responsible for the damage of privately owned technology.
3. Students will treat others with respect and use appropriate language in all of their electronic interactions with others. District technology resources will not be used to find, create or send information to spread misinformation; or harass, harm or bully others.
4. Students are expected to immediately tell a teacher or other adult staff member if they receive an electronic comment or communication that makes them feel uncomfortable, or if they accidentally access inappropriate materials, pictures, video, or websites. Students are not permitted to access inappropriate or blocked resources using personal Wi-Fi accounts, 3G/4G, proxy sites or by any other manner during school hours.
5. Students are expected to respect the work and intellectual property rights of others, and will not intentionally copy, damage, change or delete another user's work. Students are not permitted to use district technology resources or their own personal electronic devices to cheat or plagiarize information for school assignments.

Usage of school technology or BYOT is a privilege, which may be revoked for violations to the above guidelines. If violations do occur, disciplinary measures will be applied based upon the Charlotte-Mecklenburg Schools Code of Conduct.
