CMS Town Hall Meetings

to discuss proposed student assignment changes for 2017-2018

CMS leaders will share and answer questions about the Phase I student-assignment proposal to expand choice options and create more socioeconomically-diverse learning environments for students. Topics include increasing choice options across all areas of the county, reconfiguring transportation zones to expand access to choice options (*home-school assignments will not be impacted*), adding home-school performance and socioeconomic status priorities in the school options lottery and revising school options entry and continuation requirements.
