

Dear Parent or Guardian:

Your K-3 child has access to award-winning adaptive digital resources through DreamBox Learning Math. Below are directions for your child to log into DreamBox and the steps for creating a family dashboard to monitor your child's progress.

Student Login Directions:

Visit <https://www.wearecms.com/apps/pages/cmsstudentportal>

- Select the DreamBox button:
(listed under K-3)
- Enter student username and select **Go**

Note: To Utilize DreamBox Math on an iPad, you will need to download the **DreamBox** app from the app store. Data rates may apply. Contact support@dreambox.com or 877-451-7845 Option 3 for further assistance.

For further assistance logging in please visit the [help guide](#) on CMS student portal page.

As a parent, you can view your child's progress in DreamBox along the way. Please note, you will need to be logged from a **computer** the first time you create your parent account.

To Set up a DreamBox Family Dashboard (Parent Account):

- Have your student log into DreamBox on a **computer** (see directions above)

1.) With the student logged in, click the Set up parent access link in the bottom-right corner of the screen.

2) Enter the email address and password you would like to use to access your Family Dashboard, then click Submit to create your account.

Note: If you have previously set up a parent account, click I am a current customer and enter the email/password on your account)

3) With the account created and your student linked, you can choose to:

- let your child return to the play environment
- link another student from the same school by repeating the steps above

Note: It can take up to 24 hours for the student's data to appear in your Family Dashboard.

Family Dashboard Login: <http://www.dreambox.com/login>

5 Ways Parents Can Help Students Get the Most Out of DreamBox

1. Set weekly goals to maximize achievement

A recent Harvard Study found that for every 20 minutes a student spent on DreamBox, their Northwest Evaluation Association (NWEA) Measures of Academic Progress® (MAP®) score increased by 2.5 points. We recommend students spend a minimum of 60 to 90 minutes per week on DreamBox and complete 3–5 lessons per week.

To achieve their weekly lesson goals, we suggest students set up multiple sessions of DreamBox throughout the week and complete at least one or two lessons every time they log in.

2. Monitor your student's progress from home

If your student has a DreamBox Learning account through their school, you can easily set up parent access from home so you can monitor their progress. To learn more, visit support.dreambox.com.

3. Finish lessons completely

It's okay to make mistakes along the way, just be sure to complete each lesson you start. DreamBox assesses user comprehension and adapts accordingly.

4. Work independently

Getting help from others can advance students beyond their current abilities and lead to frustration.

5. Click the Help/Hint button when needed

No other tools are needed—DreamBox lessons are designed for students to think through problems without the use of pencil and paper.
