**NOTES:**

Asynchronous Learning - The students' teacher will provide materials for reading, instruction for viewing, assignments for completing, and exams for evaluation, the student can access and satisfy these requirements within a flexible time frame. Methods include self-guided lesson modules, streaming video content, virtual libraries, posted lecture notes, and exchange via discussion boards, social media, etc.

Synchronous Learning – is any type of learning that takes place in real-time, where students are engaging and interacting in learning simultaneously with the teacher. This means that the student, classmates, and instructor interact in a specific virtual place through specific online medium, at a specific time. Methods of synchronous online learning include video conferencing, teleconferencing, live chatting, and live-streaming instruction.

In order to access synchronous learning, please visit your child's teacher's canvas course where you will find a link to a Google Meeting.

All instructional materials, assignments, and resources to access learning will be housed in Canvas that can be accessed through [my.ncedcloud.org](http://my.ncedcloud.org). Additionally, teachers will provide clear direction regarding daily course expectations in Canvas.

Science, Social Studies, and Elective Classes will operate on an A-Day, B-Day Schedule. This will be listed in PowerSchool on your students schedule.
