

SLT

11.13.18

Parents: Ms Gilliam & Ms. Porcha

Staff: Bird, Black, Young, Lungarini, Mota, Hamilton

Hamilton had a discussion with Ms. Simons and Ms. Walker (former SLT Chair) as it relates to SLT membership. Our SLT Representation has to reflect the student make up of our school. Our makeup is similar to that of the school make-up (predominately African American and white), but need to partner with PTO to continue to expand PTO and ensure demographics reflect that of student population (need more Hispanic representation).

Title IX:

We have had an uptake in what students are saying.

Anderson & Hamilton are going to debrief with Newton who has been at a conference last week. We are keeping our thumb on the pulse.

Vote for moving SLT night to the PTO night in order to alleviate the number of nights out. This would increase in participation for both.

7 yes

0 no

We have surveyed the 3rd-5th kids in an effort to ensure every child has an advocate and feels safe at school. Results:

223 students responded

84% felt safe and can talk to someone

10% did not feel safe but they had someone to talk to 5% not safe and no-one to talk to.

35 kids don't feel safe

Hamilton will share the data with teachers Admin team needs to find out why kids said no and those that said they have an adult to put them in touch with that adult.

Will get the K-2 survey out too soon.

Gilliam wanted to know if this data will be shared with parents Hamilton will consider a way to share this data and build a community.

Possible Check-out for the end of the day just like morning mtgs—food for thought.

Shared the vision for the ILT team and moving the instructional dial with teachers. Team looked at a potential walk through.

Quarterly awards are on hold for now as we have some feedback that indicates need for improvement. We will all have one moving forward but the items will have to be reviewed. It should be a time which other kids strive for getting.

Will ask Ms. Simmons to add to next agenda.
