

I. Attendance Team Members: Shannon Dejohn, Karen Barrett, Michelle Bitter, Keith Chapman, Christine Bahnweg, Racine Kilpatrick, Lane Price, Emetrise Davis, Ericka Ficker, Misty Pellicciotta

II. PSE Overcrowding

- PSE parents have requested a meeting to discuss their overcrowding issue
- Options were explored at a parent meeting at PSE
 - MRE/PSE split pairing (K-2 and 3-5)
 - Redrawing the attendance lines to move some students from PSE to McKee
 - There are many factors that need to be considered
 - Moving students could require up to 10 mobile units to be added to McKee since we are currently at 102% capacity
 - McAlpine is only at 91% capacity which shares boundaries with PSE
 - Units are continuing to be built within the McKee attendance zone which will continue increase the capacity at McKee
 - Does overcrowding one school to alleviate the overcrowding at another school solve the problem?
- Timeline
 - A decision would be made by the spring of 2020
 - The implementation would be 2021-2022
