

Ranson Middle an International Baccalaureate World School

Our Areas of Focus

Ranson IB is a passionate community, that is student centered, building leaders who are globally prepared agents of social change.

The MYP Curriculum

Ranson IB Middle School's vision is to "Build Power with Communities." The MYP empowers students to become internationally minded agents of change. This framework enables students to make connections between the subjects that they study everyday, to the world around them. The "IB Learner Profiles" guide our students through a path of empowerment and social growth.

Coaching and Professional Development

At Ranson IB, we are committed to ensuring that every teacher has access to the tools and trainings they need to succeed. Every staff member will receive extensive professional development training throughout the year, with special attention to data analysis best practices, Teach Like a Champion management techniques, and instructional technology integration. Additionally, each teacher has a personal coach to support them throughout the year with resources, regular observation and feedback sessions, and much more.

School Culture

We recognize the need to promote a healthy positive culture in every classroom in order for learning to take place. Similarly, we also understand the need to be consistent in holding our scholars to high academic expectations. Our school culture is rooted in building confidence with our students, modeling how to own your learning, and encouraging our students to be creative, open-minded thinkers.

Ranson IB Middle school has been listed on Tom Vander Ark's annual list of "100 Schools Worth Visiting," as featured on the Getting Smart blog. Vander Ark praised Ranson IB's efforts to personalize instruction for every scholar.
