

Math Summer Learning 2021

SOUTHWEST MIDDLE

“WE ARE IN IT TOGETHER”

Summer Learning

Khan Academy Math Practice

- ❑ If you are interested in a virtual experience for summer practice, consider using the **Khan Academy** which can pre-test students, develop a remediation plan, and keep track of students' progress. Best of all...this is a free resource.
- ❑ If you are familiar with the **Khan Academy** and if you already have an account, visit this outside link <https://www.khanacademy.org/math> and choose which grade level or subject you would like to review over the summer.
- ❑ If you are a parent looking for more information about what the **Khan Academy** entails and how to create accounts, visit this outside link <https://www.khanacademy.org/resources/parents-mentors-1>.
