

Educational Websites for Fourth Grade

Math

www.ixl.com

This website allows students to practice skills taught in math. This is a good website for practice with word problems.

www.scootpad.com

Each student in fourth grade has a subscription to Scootpad. This website allows students to practice math skills and solve math problems that are on their individual learning level.

www.aaamath.com

Thousands of interactive math lessons and practice.

<http://www.khanacademy.org>

Provides videos that show students how to solve math problems. Good for students who are confused about a math concept or need a refresher!

<http://www.mathabc.com>

Interactive math practice grouped by grade level.

<http://www.multiplication.com>

Games, videos, and resources for multiplication practice.

<http://mrnussbaum.com>

Practice math skills with a variety of math games.

Reading

www.ixl.com

Reading and grammar practice, organized by topic.

<http://www.pppst.com>

Free and interactive Powerpoints on reading and math topics. Good for reviews.

<http://www.sowashco.k12.mn.us/ro/Pages/studentlinks/map/reading.htm>

Differentiated reading skill practice based on student MAP testing scores.

www.freerice.com

Vocabulary practice.

<http://mrnussbaum.com/langcode/>

Reading comprehension practice.
